

## LOSE PLACES BY ECONOMY REIGN

(From Thursday's Advertiser.)  
The reign of economy incident to the consolidation of the departments of Public Works, Lands and Survey under a reduced appropriation, has had its effect and it has been necessary that a material reduction be made in the personnel of the departments that go under the executive direction of Marston Campbell this morning, the first day of the new biennial period.

In the Survey Department six changes have been made, the positions held by six men being vacated by reason of the consolidation scheme and the small amount of money appropriated by the last Legislature. Those whose services will terminate are E. Loomis, a special field engineer; B. Lightfoot, a sub-assistant; E. Pardmore, a sub-assistant; G. F. Hyde and W. L. Heilbron, the latter two of which will continue in the employ of the survey bureau until the special work that they are now engaged upon is concluded. Fred E. Harvey will be engaged upon reclamation work at Kaupaa and Mr. Walter E. Wall will continue in charge of the survey bureau under the direction of Mr. Campbell.

Land Commissioner Pratt's term of office expired yesterday and Josh Tucker will be chief of the land bureau. There will be some change in the clerical force of the land department, Pat Stillman of the Board of Public Works Department being assigned to work in the public land bureau.

### Works Board Changes.

In the Public Works Department there will be numerous changes, the majority of which will not be decided upon by Mr. Campbell until he sees the machinery of the consolidated departments in motion for a few weeks.

Mr. Kluegel, who has been acting as Superintendent Campbell's assistant, will become the chief engineer of the Kula pipe line, and the head of the departments will get along without assistance.

In speaking of the changes that had been necessary in the personnel of the departments, Superintendent Campbell stated yesterday that it had been imperative, to reduce salaries in some instances of those remaining, but they would have to accept the situation and not only be content with smaller salaries, but do more work than they had been accustomed to do under the old order of things.

"If the work cannot be done in eight hours," said Mr. Campbell, "the department employees will simply have to work longer, for the work has to be done and under the appropriation made by the last Legislature a strict policy of economy is absolutely necessary."

It would appear from this that there are strenuous days ahead of the employees of the consolidated departments of Public Land, Works and Survey, and that increased duties and longer hours will be the rule.

"I cannot determine all of the changes that it will be necessary to make," said the executive head of the departments yesterday, "until I have had an opportunity of judging from the conditions as I see them in the first few weeks of the new system. I cannot tell offhand just what the changes will be."

### Fewer Inspectors.

Superintendent Campbell intimated, however, that there would be a number of changes in the force of inspectors and that there would be reductions all along the line by reason of the small amount of money at his disposal.

The decision to place Mr. Kluegel in charge of the Kula pipe line and handle the large amount of work by himself would seem to indicate that Superintendent Campbell considers the financial problem before the consolidated departments to be something acute, and that he will set an example to the subordinates in making the best of things.

It is stated that Surveyor Wall receive the same salary under the new system as he has been receiving as Surveyor General of the Territory, and that the other reductions in salaries which have been made are not very material.

Superintendent Campbell stated yesterday that he would advertise for bids on the alterations to be made so as to allow the land bureau being placed in the quarters now occupied by the Public Works Department at the Capitol.

## ONE WEAK SPOT

MOST HONOLULU PEOPLE HAVE A WEAK PART, AND TOO OFTEN IT'S THE BACK.

Everyone has a weak spot. Too often it's a bad back.

Twinges follow every sudden twist. Dull aches keep up day and night. Tells you the kidneys need help.

For backache is really kidney ache. A kidney cure is what you need.

Doan's Backache Kidney Pills cure sick kidneys.

Cure backache and urinary ills. Honolulu people recommend the remedy.

B. Handland, Custom House guard, of Honolulu, Hawaii, says: "Having been afflicted with an aching back for some time, I procured a supply of Doan's Backache Kidney Pills at the Hollister Drug Co. The results were most satisfactory. I know Doan's Backache Kidney Pills to be a valuable remedy for troubles arising from disordered kidneys."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name, Doan's, and take no substitutes.

Dr. Robert Lincoln Watkins of New York claims that tuberculosis is a sign of the blood and can be cured.

## BOARD CUTS OUT ONE ITEM

(From Thursday's Advertiser.)  
If the police commission needs a Spanish interpreter after today such a person will be employed at a per diem rate, the Board of Supervisors at last night's session deciding that a Spanish interpreter in the list of "District Court Employees" was unnecessary, at least at a regular \$75 per month salary.

Supervisor Cox, chairman of the police committee, stated that some time ago he was doubtful about the need of a Spanish interpreter, and he was in no less doubt last night. Mr. Kane supported Cox's view. Deputy Attorney Milverton who asked to give his views stated that it was true that there was very little work for such an officer, but it would be difficult, he argued, when a Porto Rican or Spanish came up in the police court, to depend on the services of an interpreter for that case. He could not afford to hang around the station waiting for a case to turn up. Therefore, it would be better to have him on the payroll at the monthly salary. As the item of \$450 for six months was in the appropriation bill passed Monday night, the Supervisors decided to allow the total amount to remain in the bill as a fund upon which to draw for per diem services, but the "Spanish interpreter" was eliminated.

Logan's resolution authorizing City Physician Dr. Mackall to visit the Queen's Hospital and obtain a list of the indigent sick being treated there, and also get a history of each case, was passed. The city physician is to get busy at once and report in three days. The Board wants to know where it is at so that it can begin to estimate how the funds shall be paid to the Queen's Hospital at the per diem rate established by the Board.

Kane wanted to know if there had been a meeting of the health committee at four o'clock. He as a member of the committee would like to know what was done. Logan stated that he had sent a note to the chairman (Aylett) while the latter was at the county offices, but heard nothing from him. He had requested the chairman to call a meeting of the committee in order to meet the hospital trustees. However, he had met with the trustees and talked hospital matters over with them. As it was not an official meeting nothing was decided upon, but at a regular meeting of the committee what took place would be presented. Logan said he was trying to save and gain time as the new system goes into effect today.

The bill of Gusie Clark for \$19 for typewriting services for the plumbing inspector's ordinance, over which Aylett and Ahia made such a row at Monday's meeting, refusing to O.K. it, was reconsidered last night and passed without a dissenting vote.

Aylett's resolution to fix the pay of employees of the road department who are paid monthly salaries, was killed.

Supervisor Quinn called attention to the fact that worms were boring into the pictures of former boards of supervisors and something must be done to save the faces of the former solons. Quinn referred to them as "pictures of our illustrious predecessors", and commented on the fact that fifteen or twenty years from now they would be very valuable. A committee was authorized to take steps to save the pictures.

The salaries of members of the police department were fixed by resolution. The salaries are in accordance with the rate of pay in vogue since Sheriff Jarrett took hold of the force. It starts with the chief of detectives at \$140 per month and runs down to jailers in the country districts at \$40.

Salary warrants for various departments were passed. Adjourned to 12 noon today to pass upon payrolls from Koolaula and Koolapoaka.

## MANGOES WILL LOOM LARGE ON THE MENU

Gerrit Wilder will leave for the mainland on the Matsun steamer Lurline today, and with him will go a box of the finest, classiest, mangoes ever grown in the Islands. These will never reach the mainland. That is, they won't if the passengers of the Lurline appreciate what a fine fruit the Hawaiian mango, as grown by Gerrit Wilder, is. Mr. Wilder is taking them along merely to be disposed of on the trip to the Coast. They are not very large, these mangoes which Mr. Wilder is taking to the Coast with him, but they are of an especially fine quality, and have an unusually sweet taste.

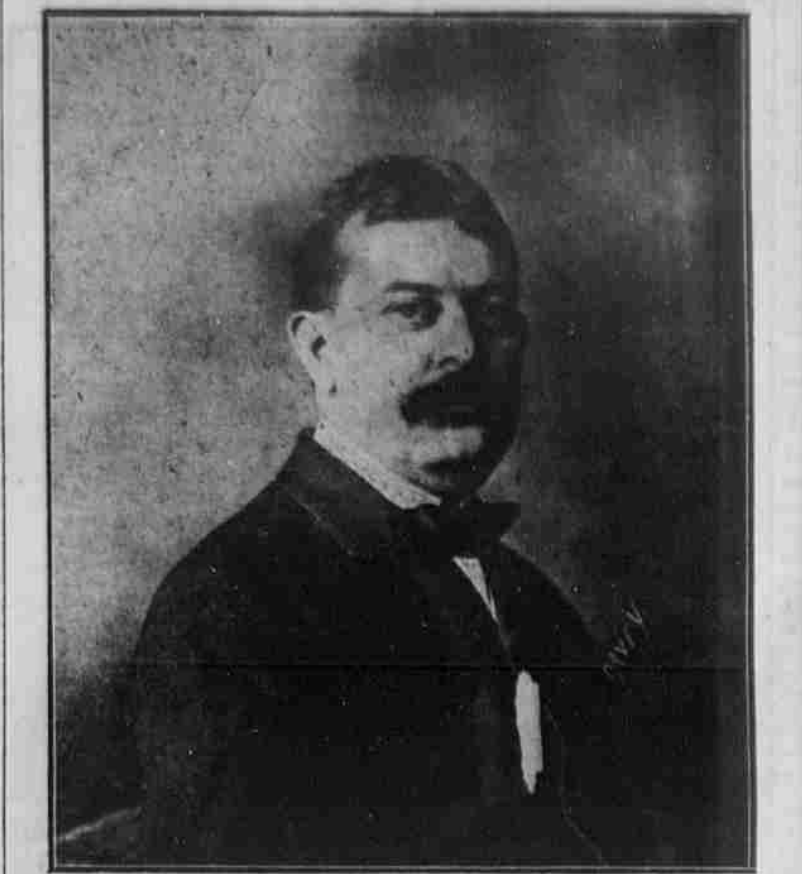

While on the Coast, Mr. Wilder, who is the wizard of the Islands, will visit Meeting Burbank in California. The meeting of these two should be important, and may result in Burbank's taking an active interest in the fruits grown in the Islands.

Harry Wilder is also going to the Coast on the Lurline. He will visit the Eik's convention in Los Angeles.

## FISHES, FAR FROM HOME, SEEM HAPPY

"The Hawaiian fishes which we took to Seattle on the transport Dix are doing well, or were when left there for Honolulu," said Fred Foster, manager of the Aquarium, who returned on the Manahua yesterday. "As to whether we send any more up depends on whether the fish commission strongly object. Altho they are here, they are not already on hand and have to be sent."

## LORRIN ANDREWS WILL BE DEPUTY ATTORNEY GENERAL

LORRIN ANDREWS, WHO IS TO BE FIRST DEPUTY ATTORNEY GENERAL

"I will appoint Lorrin Andrews as Deputy Attorney General to succeed to the place vacated when Judge Whitney went upon the bench," was the statement made yesterday by Attorney General Hemenway, and he added that Mr. Andrews would take up his duties in the department as soon as he arrived from the mainland.

There has been considerable speculation as to who would be Judge Whitney's successor as first deputy under Attorney General Hemenway, it being thought at one time that Assistant United States Attorney Rawlins would leave the Federal for the territorial service.

Mr. Andrews, who has recently been engaged in the practice of the law at Reno, Nevada, was formerly Attorney General of the Territory, and is well and widely known in Hawaii as an able prosecutor. He has had a varied experience in legal work, both in Hawaii and other portions of the world.

The new Deputy Attorney General was one of the lawyers practicing in Shanghai at the time Judge Lebeus Willey was Federal judge, and he was also among those against whom Willey

assumed a hostile attitude. The charges against Willey followed and the final result was that he was recalled from his post by the Washington authorities.

After leaving Shanghai, Mr. Andrews went to Reno, Nevada, where he has been engaged in a number of important cases. His return to Hawaii and his acceptance of the position of first deputy under Attorney General Hemenway, comes as a pleasant surprise to his many friends.

During the new biennial period the Attorney General's Department will have one other deputy in addition to Mr. Andrews, E. A. Sutton continuing in office although the last Legislature made no appropriation for a second deputy's salary. It is understood that Mr. Sutton's salary will be paid out of the contingent fund of \$50,000 which was included in the appropriation bill, and the disposition of which is left entirely in the hands of Governor Frear.

Mr. Larnach's term of office expired yesterday and he will resume private practice. Attorney General Hemenway has stated that it was absolutely essential that he should have an assistant in addition to the first deputy, whose salary was provided for in the appropriation bill. As a consequence the services of Deputy Attorney General Sutton will be retained.

## SMITHIES AND ROSE LEAVE THE TREASURY

Acting Treasurer Hemenway, who completed his duties in temporarily caring for the finances of the Territory yesterday, had the unpleasant duty of announcing two changes in the personnel of the force of the department, which took effect last night.

The two men to lose their places in the Treasury by reason of the reduced Legislative appropriation are George Smithies, deputy insurance commissioner, and Colonel Gus Rose, the license clerk.

The idea of economy that was favored by the lawmakers of the session of 1939 resulted in a general reduction in the departmental appropriations and the Treasury department did not escape. As a result Acting Treasurer Hemenway informed the two men yesterday that their services would terminate, performing a task that allows Treasurer Conkling to begin his duties today with a "clean slate," and not signalize his entry upon the position of Treasurer by being forced to carry out an unpleasant duty forced upon that official by the Legislature.

## HAWAIIAN VIEWS FOR SEATTLE FAIR

A magnificent collection of photographic transparencies will be put on exhibition this morning in the rooms of the Promotion Committee, to remain there until it is time to pack them for shipment by the Alameda for Seattle. These transparencies are the work of H. K. Bonine, ordered for the Seattle Exposition and delayed a trifle through the non-arrival of the large plates necessary for the work. In all there are something over one hundred and twenty-five photographs in the collection, twenty-eight of them being eighteen by twenty-two inches, the rest eight by ten.

They are all framed and ready to be hung in the six big windows of the Hawaiian Building, where they are certain to attract much and favorable attention to the beauties of the Islands. Mr. Bonine has been happy in his selection of views. They are all new ones, taken within the past few months, and there is an absence of hula girls, grass houses and the other things of a past Hawaii usually used as illustrations of Hawaii today. In their place, Mr. Bonine is showing beautiful residences, scenes from the plantations, bits of mountains and valleys, scenes and street scenes of Honolulu and Hilo. These show the Islands as they will be to visitors. The plates are colored and artistically mounted and labeled.

It will be found well worth while to drop into the Promotion Committee room and view them.

## COMMISSIONS SIGNED BY GOVERNOR FREAR

Governor Frear yesterday signed the commission of David Lloyd Conkling as Treasurer of the Territory of Hawaii, and two commissions for Marston Campbell as Surveyor and Commissioner of Public Lands, the full legal title of Mr. Campbell now being Superintendent of Public Works, Commissioner of Public Lands and Surveyor.

Mr. Campbell yesterday became chief of the three consolidated departments, his appointment as Superintendent of Public Works having been confirmed by the Senate at the last session of the Legislature.

The other commissions signed yesterday by Governor Frear were those of Willard E. Brown and John H. Craig, who begin a new term as members of the Oahu Board of License Commissioners. Edward Desha of Lihue has been commissioned to succeed himself as a member of the Kauai Board of License Commissioners.

## BIDS ACCEPTED FOR ROYAL MAUSOLEUM

Marston Campbell yesterday accepted the bids of the Hawaiian Iron Fence and Monument Company and Iron Walker for the construction of the new mausoleum to contain the remains of the dead chiefs of Hawaii. The contracts will be signed today and it is the plan of the new chief executive of the consolidated departments to have the work of construction begin without delay.

"There will be no delay in building the tomb," said Mr. Campbell yesterday, "the plans have been approved by those interested and the contractors will be expected to begin immediately."

The sum of \$20,000 was appropriated for the construction of the royal tomb by the Legislature, and the remains of all the members of the Royal Families of Hawaii will find a resting place within its walls.

### A CERTAIN CURE FOR BOWEL COMPLAINT.

When attacked with diarrhea or bowel complaint you want a medicine that acts quickly. The attack is always sudden, generally severe and with accompanying pain. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been known to cure. For sale by all druggists, grocers and general stores.

## FIRST WITNESS HAS CONCLUDED

(From Thursday's Advertiser.)  
The cross-examination of Scoville in the Waipahu riot case was concluded yesterday and August Spillner was called to the stand to give his version of the disturbance. Lightfoot got very little out of Scoville's cross-examination except a repetition in detail of the facts of the riot and of the bottling up of the witness and Officer Wills in the house with a howling mob outside. Kinney evidently thought no breach had been made in the witness story, as he declined any redirect examination and called his next witness to the stand.

Spillner and his son were at a little distance from Scoville when the row began, and endeavored to reach Scoville and Wills, but were prevented by the crowd, who drove them up the street, using as missiles stones and sticks, the latter from a pile of firewood at the side of the road. The Spillners were driven fifty or sixty yards up the street, and when they finally made their way back Scoville and the policeman were in the house with a guard of about thirty Japanese around the door, while the rest of the crowd were being harangued in the street and in a big tent behind the house.

August Spillner, the next witness, testified that he had been a special policeman and was now employed as luna by the plantation. On the evening of the disturbance he saw the Japanese who were returning to work coming down the road from the depot with a bundle. Another Japanese grabbed the bundle, threw the workman down and kicked him, but the witness could not identify any of the defendants as the man who committed this first assault. Scoville seized the assailant and the crowd gathered around him.

## RUSH ON PINES—HAD TO GET MORE GIRLS

W. J. Cooper, publicity representative of the Hawaii Promotion Committee, Chamber of Commerce and Alaska-Yukon commission from Hawaii at the Seattle Fair, writes to Secretary Wood of the Promotion Committee as follows:

"I am enclosing a list of names and addresses taken from our register, together with intimation as to expected visits to Hawaii. I thought that perhaps you may desire to follow these persons up with a letter or literature, as a good proportion, at least, are all right. You will notice the first name on the list—that of Mr. Nadeau. He was the first person to sign the register, and without hesitation he wrote 'Oct., 1939', and added that he expects to leave for a visit to Hawaii immediately at the close of the exposition."

"Kali's boys sang for the first time this afternoon, and made a big hit. Business is booming, and things look very favorable for a good lot of advertising. The pineapple business is beyond all expectations, and more fruit will be in order before long. Any of the pineapple people who thought that the exhibit wouldn't go, have most decidedly another think coming. Have hired three new girls to help serve the stuff."

## KEYS OF CITY BASTILE FORMALLY TRANSFERRED

On the stroke of twelve o'clock last night the keys of the Honolulu jail were formally turned over to Jailer Asch by High Sheriff Henry, the law passed by the last Legislature giving the control of the city bastille to the municipal authorities going into effect at that time. With Jailer Asch at the time was George Kala, who has been appointed deputy Jailer there. There were no special ceremonies attendant on the turning over the keys.

Sheriff Jarrett last night made known his appointments to the other positions at the Honolulu jail. As turnkeys he appointed Hugo Kamae and Robert Levy; and as guards the following were chosen: Elona Alapai, James Tripp, Manuel de Abreu, R. A. Hoffmann, J. Kipapa and J. K. Luka. These men were called before the Sheriff last evening, and were instructed as to their duties in the city prison. They will be on hand at the jail at quarter to five this morning to begin their work.

The Sheriff has made his appointments of jailers for the outside districts, two of these being reappointments.

### EXHIBIT IS GOOD: EVERYBODY SAYS SO

"I don't believe there is a single doubt but that the Hawaiian is the most original, most commented upon, exhibit at the Alaska-Yukon-Pacific Exposition," said Alonzo Gartley yesterday. "The various exhibits are set up in good shape, and are attracting a whole lot of attention."

"As for the pineapples exhibit from Hawaii, that is one of the best features. It is an absolute fact that ten per cent of the people who visit the fair are buying a plate of Hawaiian pineapples while there. Hawaiian pineapples are certainly making a name for themselves. There is only one thing that wasn't quite up to snuff, and that was the feature on Hawaii. There were no picture slides on hand to run with these, and this fact made the feature a good deal less interesting and attractive than it otherwise would have been. This defect has probably been remedied since I visited the exposition, however. Our exhibit is certainly creating a lot of interest in Hawaii."

## HELLO GIRLS MAY BE KEPT

(From Thursday's Advertiser.)  
Alonzo Gartley, who was sent to the mainland to look into the telephone systems in operation in the various cities throughout the United States and particularly to investigate the automatic telephone system, returned to Hawaii on the Manahua yesterday after an absence of several months. During the time he has been away, Mr. Gartley has visited the leading cities of the East as well as the Pacific Coast, and has gone deeply into telephone matters in each place. While he is satisfied that the automatic system is feasible here, he is also satisfied that the manual system can be made to work out to the utmost satisfaction in Honolulu.

"As a matter of fact," said Mr. Gartley yesterday afternoon to an Advertiser representative, "I am altogether on the fence as to whether my recommendation will favor installing the automatic or improving the manual system. There are so many things to be considered in the matter, and I am not yet acquainted with the local end of the proposition. Mr. Hemenway is handling this, and I will have a conference with him in the morning."

"In the first place, there were two investigations that were necessary before the work of starting the new company could be carried forward. The first one considered the mechanical possibilities of the automatic phone, and the other was the financial possibilities of operating it here with success. The wires and outside distribution system is, I know, in a woefully bad shape at the present time, and it is with the end in view of correcting this feature that Mr. Hemenway is working."

"Good results can be obtained with the automatic, I am sure, and the mechanical end of this may be improved on shortly to such an extent that it would pay to install the system. I have brought back a vast amount of data regarding the system, and this will all have to be gone over and discussed before any definite decision may be arrived at."

"I visited Los Angeles, San Francisco, Portland, Tacoma, Seattle, Chicago, Marshfield, Iowa; Columbus, Ohio, and Philadelphia, all of these towns, with the exception of Seattle, having the automatic phone in operation. The three-wire system is used everywhere save in San Francisco, which has probably the latest installed automatic system in the United States. The San Francisco system is called a two-wire system, and appears to work out better than any of the others. If it is decided to install the automatic here, I think the two-wire would be the pattern followed."

"This matter, however, cannot be settled until I have had an opportunity to get in touch with the local end of it."

George B. Carter, who is heavily interested in the new company, stated yesterday that he knew nothing further than what Mr. Gartley had told him in a brief conversation, the gist of which is given above.

"As I understand it," said Mr. Carter, "the thing has about narrowed itself down to where we have to figure whether it is financially worth while for us to make a scrap heap out of the present system and install a new one at a vast outlay of money. The manual system, which is in operation here at present, is in good condition, the working stock of the company is practically new, and we are up against a cash question of cash when we talk about the 'girlies phone' proposition."

"All the down town outside buildings will be underground, though, whether or not the automatic system is installed. The system will be improved, and will be made such a one that no one will have any cause to find fault with it."

## PEARL HARBOR WORK PROGRESSES RAPIDLY

Dredging operations at Pearl Harbor are progressing as rapidly as the contractors figured on, and one projection on which the Reclamation was working above the Queen Emma point has practically been disposed of.

The Governor which has been working on the Emma point, one of the largest in the contract job, has struck some very hard material and the drilling machine is engaged in operations for heavy blasting there. Meanwhile the Governor has been working close to the old shark pen.

The claim shell dredger may be ready for work early this month and when taken down to the harbor will be able to work at the entrance to the channel.

### JAPANESE BUBOLAE LANDED IN TANKS

Chief Leal added another ship to his already well-filled fleet yesterday when he captured a Japanese barge who has been operating in and around Honolulu. The man was found yesterday afternoon by Leal, and is being held now at the police station for investigation. A formal charge of larceny is to be preferred against him later. The Japanese robbed the store of a countryman on Alakea street, securing a gold watch and several other articles of minor value.

Although Leal's entire fleet was at work yesterday on the search for pin-junks, the eleven-year-old barge who was released on parole and who called to get in an appearance on Tuesday, was not to be found. Two days have elapsed since his disappearance, but it is expected that he will be found today.

The Swedish "Arad" in New York is a dispatch to the government, advising Sweden not to delegate to America, where she desires, time are had of the present time.
